ABSTRACT

This catalog contains a numerical listing of Canadian microfilmed theses selectively submitted to the National Library by 30 participating universities. Ordering information is provided for obtaining copies from the National Library or through local interlibrary loan. Subject indexes are published separately in Canadiana and Canadian Theses/Theses Canadiennes. (Author/KP)

How to Obtain a Canadian Thesis

Only some Canadian theses are available from the National Library, as each university decides what is to be submitted for filming. Thirty universities participate in the microfilming programme.

If the thesis has been microfilmed by the National Library, order it from the Canadian Theses Division or borrow it on interlibrary loan by contacting your local library. If possible, verify your order in the national bibliography *Canadiana*. Automated users can search the Canadian MARC data base.

This catalogue is a numerical listing to the series. For subject access, consult *Canadiana* and *Canadian Theses / Thèses canadiennes* which are also prepared by the National Library and sold by Printing and Publishing, Supply and Services Canada, Ottawa K1A 0S9.

Prepayment of all orders is required, with the remittance payable to the Receiver General of Canada. Theses in roll microfilm format (series TC 1-16874) are $10.00 each. Theses in microfiche format (series TC 16875 onwards) are $5.00 each. Prices are subject to change.

Always quote the thesis series number (e.g. TC-19017) when ordering. The National Library cannot supply photocopies because it holds the copyright for microform only.

Comment se procurer une thèse canadienne

La Bibliothèque nationale ne vend pas toutes les thèses canadiennes, seulement celles que les 30 universités participantes ont fait microfilmer depuis leur adhesion au programme. L'Université de Montréal ne participe pas au service.

Si la Bibliothèque nationale a microfilmé la thèse, il faut s'adresser à la Division des thèse canadiennes et si possible, vérifier les références dans la bibliographie nationale *Canadiana*. Ceux qui ont accès à un système automatisé peuvent trouver les notices ordinolingues sur les bandes MARC canadiennes. Si vous préférez emprunter la thèse, communiquez avec le service de prêt entre bibliothèques de votre bibliothèque.

Ce catalogue est une liste numérique de la série. Pour accès par sujets, consultez *Canadiana* et *Canadian Theses / Thèses canadiennes* qui sont compilées par la Bibliothèque nationale et vendues par la Division de l'imprimerie et de l'édition, Approvisionnements et Services Canada, Ottawa K1A 0S9.

Toutes les commandes de thèse sont payables à l'avance Le paiement doit accompagner la commande et être établi à l'ordre du Receveur général du Canada. Le prix est de $10.00 pour une thèse sur rouleau de microfilm (no de série 1-16874) et de $5.00 pour une thèse sur microfiche (à partir du no 16875). Les prix sont sujets à changement sans avis préalable.

Précisez toujours le numéro de série (par exemple TC - 19017) au moment de placer la commande. La Bibliothèque nationale ne peut fournir de photocopies car elle ne détient les droits d'auteur que pour les microformes.
